

# ClubLink Introduces Impact Tournament Systems Scoring and Banquet Presentation

ClubLink has partnered with **Ace Tournament Services** to bring **Impact Tournament Systems** to our clients. We feel the availability of this system for our clients will not only enhance your tournament's experience but can also function as a new revenue-generating source for your event.

**Impact Tournament Systems** can function in several different capacities and allows the capability of displaying:

- Sponsor logo's
- Digital Pictures
- Tee-Times
- Scores
- Text Messaging
- Commercials

Events can receive additional benefit and or sponsorship revenue as **Impact Tournament Systems** allows event sponsors the opportunity to increase visibility by digitally showcasing logos, and/or charitable causes. This versatility will allow you as an event coordinator to raise money for the event by selling advertising on the system while still incorporating the fun aspects of the day such as photograph highlights and final scoring results.
